in unlaon with the policy of the majority of papers throughout the State, the Louisville Times has extended itself in choosing invectives In ita description of the late General Assembly, but has specialized by attacking the Senatora and Repreattacking the Senatora and Representatives from Jefferson county, especially the former, and to date has had no word of praise for Senators Knight, Robertson or Huffaker, even misrepreaenting the facta in the good roads bill, which was a pet measure of the Times, the sasociate editor, Robert J. McBryde, making a W. Bingham, Robert L. Page, Morton K. Since the adjournment this same associate editor has written that Speaker Claude Terrell, Lieut. Gov. McDermott and Senator lluffaker deserve all of the credit for the passage of the good roads bill, ignor-ing the other two Louisville Senatora, whom Senator J. F. Bosworth a Republican and author of the self-aame bill, complimented in the highest terms for their hearty efforts in behalf of the measure, yet the Times goes out of its way by insinuation and inuendo to cheapen these two men in the esteem of their constituents.

Then again the workmen's compensation hill, which is considered one of the most important pieces of legislation passed by the Legislature, was made a law through the signal efforts of Senator Knight, who

Beck-ham over that body, not seeming to realize that the failure or success of

Representative George B. Barrett, in a visit to this office the other day, stated that he wished to deny the assertion in the daily papers that his boxing hill was unreported for passage because of a trade made with the supporters of the rodlight bill, which was also withheld for passage. Mr. Barrett further states that he had enough pledged votes for the passage of his hill and was unable to push the measure on account of lliness during the last several days of the legislative session. Another misstatement of the daily press was that John Schneider, of the local labor hody, was responsible for the passage of the plumbers' bill, when the fact remains that the sole credit for the pushing of this measure belongs to Thomas Kelly, business agent of the Plumbers' Local, who worked unceasingly for its passage,

and which is attested to by the different representativea. Schheider was also given undue credit for the passage of the workmen's compensabill, according to reliable

suthorities. As predicted in the columns of the Kentucky irish American recently, the proceedings of the Kentucky State Federation of Labor, which are just being issued, will put an awful crimp in the Gubernatorial aspirations of Agricultural Commissioner Newman, as it contains photograph checks of one-fourth of the annual salary of former Labor Inapector Ben Sand, same being indersed by a H. McCarthy and then in turn by Newman himself, which role is not very consistent with the high and mighty attitudo he assumed when dismissing Sand for exposing the labor record of the then Buil Moose candidate for Mayor, and which at titude was highly spproved of by the Haldeman papera, which in their further regard for Democracy en deavored to show the Democratic ATTENTION TO JUDICIAL RACES deavored to show the Denight of NO TREATY PROVISIONS VIOLATED faisifier after the recent election.

Now that it is practically con-ceded that Congressman Swagar Sheriey will have no opposition in the Democratic primary of August next, the attention of all the local politicians is being directed to the judicial nominations of the August primary of 1915, which is a free-forall one, and to date there have been K. Yonta, Thomas Walsh and othera. Lincoln, Field, Quaries, Smith, Gordon and Gregory will all he candidates for re-election.

Asquith Repudiates Guarantee Given Mutinous British Army Officers,

NATIONALISTS STANDING FIRM

This has been an exciting and nomentous week for the Irish home rulo cause in Parliament, hut as we go to press it seems that the threatened dangers have passed and that Parliament will place the bill on the statute books without further concessions to the Unionist and Orange opposition led by Bonar Law and Sir Edward Carson. The first disquiet-ing news was the disaffection among the officers of the regular army, when numbers of officers in Uister resigned rather than obcy orders. Threats of a crisis in the army if a movement of regular troops was undertaken against Ulster had long been current, and in some quarters It is believed that the sudden marching of a limited number of troops ties might gather an idea as to how wideapread the threatened disaffecconcerned are performing their duties, which duties naturally includo ohedieace to orders. This would indicate the threatened mutiny has developed into a flasco.

According to press reports King George has been taking active part in the week's negotiations, but the Government leaders show a disposition to oppose any compromise with the recalcitrants. For all severe pains it is a simple and effective remedy. Have a pan with one cup of water hoiling on the range. Put into this one-quarter cup of butter and one-half cup of dairy cheese shaved. When the cheese is dissolved add one-half cup of unsifted flour, stirring all the time. Do not feel anxious because the flour is lumpy, hut stir as if your life depended upon it. After a little the paste amooths out. After a little the paste smooths out. Boil three minutes from the time you first put in the flour. Season with salt and cayenne pepper and cool a little. Then break an egg into the mixture and beat together well, then another and beat again. Drop by teaspoonful in buttered baking sheet. Bake for twenty minutes in a moderate oven. This makes twenty-four, or more if you make them smail. They are pretty to look at and delicions to taste.
